BCI Electronic Communication
Well-Connected
FSA Vendor REMINDER

SIGN-UP!

...for Blue Cross E-statements

Make your life a little easier by enrolling in Blue Cross of Idaho's electronic statement program.

Blue Cross of Idaho's electronic statements, otherwise known as explanation of benefits (EOB), program notifies you by email when you have new information to view. Once you log in to the secure member area, you can review the information and save it to your computer. Having your documents available electronically and in real time makes it so much easier to submit claims for your flexible spending account (FSA).

The EOB program is a secure, cost effective, environmentally friendly way for Blue Cross of Idaho to stay in touch with you. Join this new program and you'll no longer receive your statements by mail. This service delivers only medical, not dental, EOB statements.

To enroll, go to <https://members.bcidaho.com/electronic-communications/communications-tool.page>.

You must be a registered member to use this service. If you are not registered on the Blue Cross of Idaho member site, [register](#) today. If you are a registered member, please [login](#).

Starting July 1, 2016!!

Using the Blue Cross of Idaho portal, members will be able to take advantage of the Well-Connected program.

WellConnected gives members access to online workshops, health trackers, and a personal health assessment. The tools and resources are available to keep you well and help you improve your health.

You can also participate in fun health promotion challenges throughout the year.

★ Flexible Spending Account Reminder ★

Starting July 1, Navia will service all of your FSA needs for FY2016 and FY2017.

As we transition from our current vendor to our new Flexible Spending Account (FSA) vendor, **Navia Benefits Solutions**, we've identified some efficiencies in the process that will save employees time and money.

Navia will be managing the rollover funds and claims runout period from fiscal year 2016 (FY2016) in addition to the new fiscal year 2017 (FY2017) funds. This change will advantage employees as it eliminates the redundant administrative fees for having accounts with multiple vendors and simplifies the process.

*****July will be a month of transition as accounts and funds are transferred to Navia.*****

The brief transition period could result in a delay in processing FY2016 claims during July. To avoid a delay in reimbursements, we recommend you submit FY2016 claims as timely as possible. Stanley, Hunt, Dupree & Rhine (SHDR), will accept and process claims received before June 30.

PLEASE NOTE: SHDR debit cards will not be active after June 30.

For those with rollover funds in their medical account with SHDR, funds will automatically be transferred to Navia by SHDR at the beginning of FY2017.

Navia will also manage the claims run-out period. Claims from FY2016 (July 1, 2015 – June 30, 2016) must be submitted to Navia between July 1 - October 31, 2016 for processing.

COMING SOON!

In July, OGI will launch a new website! ogi.idaho.gov is your source for benefit related information. On the website you'll find information to help you maximize your benefits as well as manage your insurance through life events such as a new baby, marriage, retirement, & leave.
